Skills

Software

- Fluent: C, Python (TensorFlow, PyTorch), MATLAB, Linux, Bash
- Intermediate: C++, JULIA, LaTeX, Markdown, Git
- Basic: Verilog, Android, Java, SQL, HTML, CSS, AWS

Hardware

Analog/Digital Circuits, Arduino, FPGA, Raspberry Pi

3D Printing (worked as lab manager)

Ultimaker and Formlabs printers, Autodesk Fusion 360

Language

Fluent: Korean (Native), English
Basic: French

Leadership

Joint Alumni Association of Gangseo High - Yonsei Univ.

- President** Mar. 2017 ~ Present
- Rebuilt the leadership after a sudden disappearance of a former president.
 - Held alumni career fair and exam snack event.

Kwan-Seol Cha-Hoe: Korean Traditional Tea Club, Yonsei Univ.

- Pres, VP, Treas.** Jul. 2015 ~ Jan. 2017
- Planned and conducted tea lectures in English for international students.
 - Established connection between the club and BongChu Food System Co. to evaluate their tea products.
 - Launched club asset list to control stock of teas and equipment.

Volunteer

Ji-eum, Yonsei Univ.

Oct. 2017 ~ Jun. 2019

- Deployed, collected, washed tumblers which were free to borrow to reduce the usage of disposable cups.
- Cleaned school cafeteria and donated my earnings to students in need.

Education

University of Michigan

Ann Arbor, MI
May 2021
GPA: 3.23 / 4.00

Yonsei University

Seoul, South Korea
Aug. 2019
GPA: 3.61 / 4.30

Work

Dell EMC through Multidisciplinary Design Program at UMich

Ann Arbor, MI
Jan. 2020 ~ Dec. 2020

M.S. in Electrical & Computer Engineering

- Signal & Image Processing and Machine Learning

Coursework: Matrix Methods (Signal Processing, Data Analysis, Machine Learning), Random Process, Computer Vision, Optimization, Medical Imaging Systems, Parallel Computing, Natural Language Processing, Machine Learning

B.S. in Electrical & Electronic Engineering

Coursework: Signals and Systems, Digital Signal Processing, Data Structure and Algorithms, Application Programming, Computer Architecture, Operating Systems, Computer Network

Software Engineer (Backend), Project Manager

- Implement a full-stack system that locates assets in data center using Bluetooth 5.1 direction-finding technology.
- Research on algorithms of Angle of Arrival and implement them in Python (NumPy, TCP).
- Participate in agile development cycle.
- Manage the private GitHub repository.

POSCO, Electrical & Instrument & Control Tech Division

Pohang, South Korea
Jan. 2019 ~ Feb. 2019

Intern

Proposed Time-Frequency Domain Reflectometry, a cable diagnosis method using signal processing for steel mill.

C Language Class (Engineering Information Processing), Yonsei Univ.

Seoul, South Korea
Sep. 2018 ~ Dec. 2018

Teaching Assistant

Instructed C language to freshmen during lab sessions.

UNESCO APCEIU

Seoul, South Korea
Jul. 2015 ~ Aug. 2015

Intern; Organizer & Field Staff

Prepared and operated 15th Asia-Pacific Training Workshop involving 30 educators from 19 countries.

Research

Optical Imaging Systems Lab, Yonsei Univ. (Advisor: Prof. Seung Ah Lee)

biomedia.yonsei.ac.kr

Research Assistant

Seoul, South Korea

Finding a hidden camera using Raspberry Pi IR Camera.

Mar. 2019 ~ Jun. 2019

Lensless Microscopy / Purkinje Imaging

Medical A.I. Lab, Yonsei Univ. (Advisor: Prof. Dosik Hwang)

mai-lab.net

Undergraduate Researcher

Seoul, South Korea

Implemented a novel CNN (TensorFlow) involving Fourier transform to remove artifacts from undersampled MR images.

Dec. 2016 ~ Jun. 2017

Projects

Computer Vision, UMich

Implemented "Few-Shot Adversarial Learning of Realistic Neural Talking Head Models".

Apr. 2020

Terminal Live @ Umich by Citadel & Correlation one, Ann Arbor

Designed algorithms for Terminal hackathon, an automated real-time strategy game.

Sep. 2019

Computer Architecture, Yonsei Univ., Seoul, South Korea

Implemented pipelined architecture of MIPS processor.

May 2018 ~ Jun. 2018

Video Interpolation, Yonsei Univ, Seoul, South Korea

Designed an RNN architecture that improved FPS of a video.

Oct. 2017 ~ Dec. 2017

Digital Signal Processing, Yonsei Univ. Seoul, South Korea

2D Signal Filtering & Coding / Audio Signal Filter Design (MATLAB)

Mar. 2017 ~ Jun. 2017
